### DETAILED ACTION

1. In the response filed June 18, 2004, Applicants have elected Group I (Claims 1-6). Claims 7-15 are withdrawn from consideration.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 4 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. At claim 4, the compounds improperly depend upon claim 1. Plural salts are claims are claimed. See the last line.

B. At claim 5, the compounds improperly depend upon claim 1. The piperidiny and pyrrolidiny rings are not attached at the 3- position.

Clarification is appreciated.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Tchelitcheff (DE 812911).

Art Unit: 1625

The instantly claimed compound is disclosed. At page 2, column 2, see the last named compound. The claims are fully met when  $R^1$  or  $R^2$  = methoxy;  $R^4$  = ethyl;  $n = 1$ ; and  $R^3$  = hydrogen.

6. Claims 2, 3 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. The Information Disclosure Statements filed June 1, 2004 has considered.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zinna N. Davis whose telephone number is 7571-272-0682. The examiner can normally be reached on M-F.

9. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
